

**XXXIV. Detachment Workshop**  
with International Faculty:  
**Art of Scleral Buckling**  
with Quiz

**BRUSSELS, Belgium, November 26, 2004**  
during Annual Meeting of  
Belgian Ophthalmological Societies  
November 25 - 27, 2004

**T o p i c s**

- Search for the primary retinal break
- Minimal segmental buckling without drainage
- Search for the missed break in surgical failure
- Reoperation as minimal approach:
- Case Presentations with quiz
- Panel Discussion

**Scientific Program:** Prof. Ingrid Kreissig  
University of Tuebingen, Breuningerbau  
72075 Tuebingen, Germany  
Fax: +49-7071-295209  
+49-621-3833803

e-mail: [ingrid.kreissig@augen.ma.uni-heidelberg.de](mailto:ingrid.kreissig@augen.ma.uni-heidelberg.de)

**Local Organization:** Anne-Catherine Gribomont, MD  
Chairman Belgian Ophthalmological Societies 2004  
e-mail: [gribomont@ofta.ucl.ac.be](mailto:gribomont@ofta.ucl.ac.be)

**Location:** Brussels, Belgium

**Congress language:** English

## **Friday, November 26, 2004**

1. The 4 Rules to find the primary break  
*Kreissig (Mannheim, New York)*
2. Differential diagnosis of rhegmatogenous versus non-rhegmatogenous detachments  
*Verbaeken (Brussels)*
3. The art of scleral buckling:
  - Segmental sponges: radial vs circumferential and size of sponges, nondrainage
  - Surgical technique, applications, results*Boeker (Dortmund)*
4. Retinal detachments "without a break": What to do?  
*Kreissig (Mannheim, New York)*
5. Residual fluid  
*Boeker (Dortmund)*
6. The 4 Rules to find the missed break:  
A rational approach to surgical failure  
*Kreissig (Mannheim, New York)*
7. Case presentations  
*Smets (Antwerp)*  
Panel:  
*Kreissig, Verbaeken, Boeker*
8. The balloon operation:  
Surgical technique, indications, results  
*Kreissig (Mannheim, New York)*
9. Case presentations  
*Boeker (Dortmund)*  
Panel:  
*Kreissig, Verbaeken, Smets*
